modular apartment entry systems

Tek-ENTRY® Apartment Entry Panels & Suite Stations

Entrance panels are constructed of extruded aluminum with a brushed anodized finish. Weather-resistant Mylar speakers are protected by either a louvered grill and perforated aluminum mesh (for vandal-resistant panels), or an ABS plastic grill. Entrance panels may be configured to accommodate 3-, 4- or 5-wire speaker-type apartment stations.

Tek-ENTRY® offers flush mount and surface mount 3-, 4- and 5-wire speaker-type ABS plastic apartment stations. Add an auxiliary strobe for the hearing impaired where needed.
