## Nurse Call System

Master Station  
with Built-In Monitor

**TekTone®'s Tek-CARE®NC300 II** nurse call system provides your facility with everything you need to increase your staff's efficiency and job satisfaction. The system includes all the features and connectivity you expect from an advanced system.

The system's NC305LCD nurse master station includes a built-in monitor that displays pending calls in color, including such information as room description and patient name. The master station is easy to use and provides crystal-clear audio communication.

Newly redesigned LED dome lights seamlessly blend in with existing decor, virtually disappear when switched off, and eliminate costly bulb replacement.

LED Dome Lights

Staff presence registration via nurse/aide presence switches allows you to locate your staff quickly and efficiently—without using overhead paging. Adding a **Tek-PAGING®** system enables communication with staff on the move.

**Tek-CARE®NC300 II** is a fully independent system that does not rely on computers, ensuring reliability and safety. Every component is UL® 1069 Listed for use in skilled nursing facilities, hospitals and medical centers.

Improve facility efficiency by adding a **Tek-MMARS®300 Management Monitoring and Reporting System**. Advanced features include event monitoring, management reporting, email output, and enhanced staff paging. Calls are logged to monitor staff response time, facility efficiency, and accountability.

Integrate a variety of systems together by adding software modules to the Tek-MMARS®300. The Tek-MMARS®300 can display and report on calls and events from any modern TekTone® nurse call system — plus a variety of other systems, such as fire and security systems.

**Tek-MMARS®300  
Management Monitoring  
And Reporting System.**

With over 40 years of experience, **TekTone®** is a recognized leader in the healthcare communications industry. We understand the requirements of modern care facilities, and are uniquely positioned to serve the healthcare communications market. TekTone®'s quality system is registered by UL® to the ISO 9001 standard.
